Making the right choice

There are so many lenders, all offering dozens of different products and options from which to choose. There is repayment, interest only, endowment, pension-linked and ISA mortgages. These can be fixed, variable, capped, discounted, tracker or cash back - to name but a few. With all this to compare and consider, how can you make the right choice?

Being unbiased independent mortgage advisers we are confident that we **will** be of help to you.

Our objective is simple...to help people buy their homes. The home buying process and mortgage market is more complex, more aggressive, and more competitive, than ever before, but through Prospect Mortgage Services, you have access to a team, who specialise in arranging mortgages. As we are a truly independent organisation, we genuinely survey the entire marketplace before making any recommendations to you. Once you understand the proposed deal and you are happy to proceed we will submit your application after which we work just as hard to keep you informed and up to date with the progress of your mortgage and house purchase.

Today's mortgage adviser should be working closely with your other professional advisers, such as Estate Agents, Solicitors, Accountants and Surveyors. All of these roles overlap during the purchase process, and by communicating regularly with all parties, we can try to make the whole process smoother and more effective, and therefore less stressful for you. Result 😊

Making it simple

Once we have found and then recommended a suitable mortgage or insurance for you, we will ensure you are fully aware what happens next and have to hand, everything you need to complete on your property, including:

- The reasons for making our recommendations
- The repayment method & period
- The consequences of early repayment
- The type of interest rate: variable, fixed, discounted etc
- Your repayments after any fixed or discounted period
- Whether you have to take insurances with the mortgage, and if so the cost of such insurances
- The costs and fees involved with the mortgage, such as valuation, arrangement and lending fees
- Whether your selected terms can be continued if you move house

Making sure you're covered

There are a number of insurance policies that will ensure your family is protected should something unforeseen happen. In some cases lenders will only provide the mortgage if these policies are put in place. Again we search the marketplace to ensure that you get the cover you want and need at the most competitive price possible.
